SPECIAL PRICE REDUCTION

DSE4420 AMF Electronic CANbus Control Module R 1 950.00 Excl. VAT

While stocks last! These are net special prices, and no other discounts are due.

- Auto Mains (Utility) Failure Control Module with 3 phase mains sensing, and single phase generator sensing.
- The module offers electronic (CAN) engine capability.
- Controls switchover between mains and generator supply. Monitors speed, frequency, voltage, oil pressure, coolant temperature and fuel level.
- The module will display warnings, shutdown and engine status information on the back-lit LCD screen and illuminated LED.
- The module can be easily configured using the DSE Configuration Suite PC software. Selected front panel editing is also available.
